

Oakmont Village
Manager's Project Update
January, 2017

Winter Rains

To date, OVA has been very lucky to only have one roof leak in the west rec building. No trees have fallen in the common areas and there has been no flooding in the buildings.

East Rec Entrance Sign

The sign is in the process of being made and will be installed when the weather gets better; meaning the ground is not so saturated with water.

East Tennis Court Surface Issue

The courts are still not ready to for play. The good news is that it has been a very rainy winter and that's also bad news because the court surface application is unable to dry out and set.

East Rec Deck Replacement

The Construction Oversight Committee will discuss deck replacement options at this board meeting.

Multi-Use Sports Court

The sports court permit from the City has been issued.

Office Remodel

It was a rocky road to get the office approved by the City and opened but that's the construction business!

We are thrilled to be in this newly remodeled office space at 6637 Oakmont Drive. It's YOUR office space too so please come in and check it out. We hope you enjoy the attractive and professional look of the new face of Oakmont.

2017 Projects:

East Rec deck replacement

East and central pool replastering and conversion to saline

Refurbishment of existing saunas

Berger Center Evaluation

Possible roof replacement for the west rec building

I am available for your comments and suggestions at: cassie@oakmontvillage.com or 707-3539-1611.
