

**8 Oak Shadow Place**  
**Firewise Projects Showcase Handout**  
**Saturday, May 21<sup>st</sup>, 10 a.m. – 1 p.m.**

<b>HOME HARDENING</b>	
<b>Action</b>	<b>Details</b>
Vent upgrade	Changed all the upper and lower vents to 1/8 "mesh vents. Louvered vents are not recommended as it inhibits good air flow to enter and as a result could cause mildew/fungus to collect.
Gutter Guards	Added mesh gutter guards to prevent leaves from accumulating.
Hardscaping	Concrete driveway and walkway installed up to the front door. Took out grass and added stamped concrete in back and pavers outside back bedroom.

<b>LANDSCAPING</b>	
<b>Action</b>	<b>Details</b>
Rock Installation	Removed fir bark wood chips near the home and replaced them with rock.
Plant Upgrade	Installed drought-tolerant and drought-resistant plants: small Japanese maple trees, Yucca filamentosa 'Color Guard', Chondropetalum tectorum, and Moss Verbana ground cover.
Cedar Tree Removal	Large tree removed from the backyard due to fire danger, root exposure, dead branches, and the tree leaning towards the house.
Juniper Removal	Junipers removed around the home prior to the Firewise Policy requirement.
Tree Pruning	Tree limbs pruned away from the roof.
