Christel Antone, General Manager
Oakmont Village Association (OVA)
christel@oakmontvillage.com

Dear Ms. Kiddoo and Ms. Antone,

This letter serves as your approval of your attached request dated February 6, 2026, for postponement of the deadline to cease use of potable water for irrigating nonfunctional turf located on your property. Irrigation of the property's nonfunctional turf with potable water may continue for an additional three years past the compliance deadline identified in Water Code section 10608.14, subdivision (a).

Water Code section 10608.14, subdivision (c), provides that the State Water Resources Control Board (Board) "may, upon a showing of good cause for reasons including economic hardship, critical business need, and potential impacts to human health or safety, postpone a compliance deadline in subdivision (a) by up to three years for certain persons, institutions, and businesses…." On February 10, 2026, you submitted a request, dated February 6, 2026, for postponement of your current statutory compliance deadline based on reasons of economic hardship. Your request was supported by cost estimate surveys describing the anticipated financial burden and a narrative description of the fixed-income nature of the residents under your purview. After review of your submittal, your request meets the criteria in section 10608.14, subdivision (c) for Board approval.

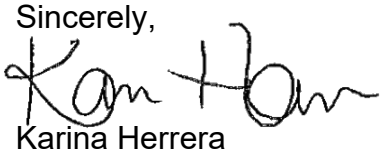

Please note that this approval may be relevant to assessment of your compliance with section 10608.14 by entities other than the Board. Accordingly, it is incumbent on you to maintain a copy of this approval.

Please also note that this approval applies only to your obligation to cease irrigation of nonfunctional turf on this property with potable water by the date specified in section 10608.14. This approval does not waive any obligations you may have under other local or state rules that apply to irrigation of nonfunctional turf on your property,

including any existing or future drought-related regulations, ordinances, or water shortage contingency plans in effect during the period of this postponement.

Please reach out to program staff at nonfunctionalturf@waterboards.ca.gov with questions.

Sincerely,

Karina Herrera
Conservation Program Supervisor
State Water Resources Control Board
